Dear friends at US Department of Agriculture,
I am writing to tell you what I think about
the proposal to change WIC foods. I believe
that you should add fruits and vegetables and
also whole grain foods too. Baby food would also
be a great help to add to WIC checks.

Thank you

Latisha Akinlaye.

I agree that the WIC checks should stay how they are. They are very dominant and help my child's nutritional needs. My take on the change is too drastic as I think the checks should stay as they are.

Dear USDA,

I would like to thank you for the support you've been giving us. And right now I'm getting milk, cereal, cheese, peanut butter, eggs and juice. But I hope you'd give us rice, bread, vegetables and fruits because I know it's a much needed and healthier food for me and for my family.

Thank you for your consideration

I would like for the WIC checks to continue the same as it is right now. Because for me it's more convenience and more helpful. Plus, the help it gives me with the milk, cheese, and eggs, come in handy for me. Especially that in my family milk is a source that never we all like to drink.
